

Certificate Course in Motor Driving for Girl's (Car)

Offered by Centre for Innovative Skill-Based Courses (CISBC)
Open Learning Development Centre (OLDC), University of Delhi

Duration: 21 Days

Course Fee: ₹5000/-

Mode: Offline Practical Training

Course Overview

The Motor (Car) Driving Course is designed to educate individuals on the importance of **safe driving practices, adherence to traffic rules, and awareness of road hazards.**

This course is specially designed **only for girls**, aiming to build confidence, independence, and responsible driving behavior. The primary goal is to reduce road accidents, injuries, and promote safe driving habits.

Course Objectives

- Promote safe and responsible driving behavior
- Develop practical driving skills
- Create awareness about traffic rules and regulations
- Build confidence in handling real-road situations
- Reduce road accidents through proper training

Course Structure

Module 1: Introduction to Road Safety

Purpose: To establish the importance of road safety

Topics Covered:

- Importance of safe driving practices
 - Basic principles of accident prevention
-

Module 2: Traffic Rules and Regulations

Purpose: To understand road laws and rules

Topics Covered:

- Traffic signs, signals, and road markings
 - Speed limits and their importance
 - Right-of-way rules at intersections and crossings
-

Module 3: Defensive Driving

Purpose: To develop proactive driving skills

Topics Covered:

- Concept of defensive driving (anticipation, awareness)
 - Maintaining safe distance and mirror usage
 - Handling aggressive drivers and road rage
-

Module 4: Handling Adverse Conditions

Purpose: To prepare for difficult driving situations

Topics Covered:

- Driving in rain, fog, and poor visibility
- Speed control and safety precautions

Module 5: Vehicle Features and Technology

Purpose: To understand modern vehicle systems

Topics Covered:

- ABS, airbags and safety systems
 - Parking sensors and rear-view camera
 - Electronic Stability Control (ESC)
 - Lane warning and emergency braking systems
-

Module 6: Road Safety for Pedestrians and Cyclists

Purpose: To ensure safety of all road users

Topics Covered:

- Awareness towards pedestrians and cyclists
 - Safe passing techniques
 - Driving near schools and crowded areas
-

Module 7: Legal Awareness

Purpose: To understand legal consequences

Topics Covered:

- Penalties for traffic violations
 - Risks of speeding and rash driving
-

Module 8: Vehicle Maintenance

Purpose: To ensure safe vehicle condition

Topics Covered:

- Basic vehicle checks (oil, brakes, tires, lights)
- Importance of servicing and maintenance
- Identifying wear and tear

Practical Training

- Real road driving practice
 - Parking practice (parallel & reverse)
 - Traffic handling experience
 - Confidence building sessions
-

Course Outcome

After completion, learners will be able to:

- Drive safely and confidently
 - Follow traffic rules effectively
 - Handle real-life road situations
 - Maintain vehicle safety
-

Why Join This Course?

- Specially designed for girls
 - Short duration (21 Days)
 - Practical + theoretical training
 - Build confidence and independence
